united in marriage on Saturday.

## EXPECT STATEMENT FROM GERMANY

Officials Await Details of the  
Sinking of the Hesperian.

Washington, Sept. 7.—Beyond the  
belief that certainly the German gov-  
ernment must make some statement  
with regard to the sinking of the Can-  
adian liner Hesperian, no conclusions  
were reached here as to the effect the  
incident will have on the relations be-  
tween the United States and Germany  
on the submarine issue generally. Con-  
sul Frost at Queenstown added  
nothing to his first message saying  
that the Hesperian with two Ameri-  
cans on board had been torpedoed. It  
is expected that Consul Frost will  
soon have additional information,  
gained from the officers of the Hes-  
perian, while it is thought Ambassa-  
dor Page will have some facts from  
the British admiralty to transmit to  
Washington.

What few indications there were of  
opinion in official quarters led to the  
belief that the administration will  
welcome any fact which tends to show  
that it was not a torpedo which caused  
the sinking of the Hesperian.

The sinking of the Hesperian before  
she reached Queenstown is regarded  
by many as a favorable circumstance  
to the extent that it will make it much  
more difficult to determine positively  
whether the vessel was struck by a  
torpedo or a mine.

The expectation is that the usual  
inquiry will be addressed to the Ber-  
lin government as to whether it had  
any information about the case. Upon  
the response given by Germany much  
will depend. Should the German gov-  
ernment deny responsibility many  
here believe that it will be more dif-  
ficult for the United States to make an  
issue of the incident, in view of the  
lack of proof that it was a submarine  
which caused the sinking of the liner.  
Should responsibility be admitted, it  
is the hope and expectation of Wash-  
ington that the action of the com-  
mander will be disavowed.

### TO SPEAK ON OHIO DAY

Governor Willis to Visit Exposition in  
October.

Columbus, Sept. 7.—Governor Willis  
will be the central figure at Ohio day  
at the Panama-Pacific exposition in  
San Francisco Oct. 6. The governor,  
accompanied by Mrs. Willis and sev-  
eral friends, will leave Columbus  
Sept. 21 on their western trip, going  
first to Findlay, where the governor  
will participate in the dedication of a  
monument. From Findlay he will go  
to Chicago, leaving for California by  
way of St. Paul Sept. 22. Stops will  
be made in Spokane Sept. 26 and Ta-  
coma Sept. 29. The party will arrive  
at San Francisco Oct. 2. The Willis  
party will start for home Oct. 7, com-  
ing by way of Los Angeles, San Diego,  
Grand Canyon, Denver and Kansas  
City. The governor will make speeches  
in these cities.

**Girl and Young Man Drown.**  
Columbus, Sept. 7.—Margaret Lilly-  
bridge, twelve, was drowned in the  
Olenyung river when she fell over  
the railing of the King avenue bridge.  
An unknown young man was also  
drowned an hour later in trying to re-  
cover the body of the little girl.

**First Municipal Picnic.**  
Cincinnati, Sept. 27.—Seven thou-  
sand couples danced on the floor of  
the city reservoir at Eden park during  
the celebration of Cincinnati's first  
municipal picnic. The floor of the res-  
ervoir had been drained and waxed.

**Doctor Carr Dead.**  
Columbus, Sept. 7.—Dr. C. S. Carr,  
sixty-five, is dead. He gave a great  
deal of his time to religious, medical,  
philosophical and philanthropic mat-  
ters.

**Turkish Warship Sunk.**  
Athens, Sept. 7.—The Turkish tor-  
pedo boat destroyer Yar Hissar has  
been sunk in the Sea of Marmara by  
an allied submarine.

**Turkey's Weak Sultan.**  
Mehmed V., sultan of Turkey, was  
imprisoned for practically his entire  
life by his brother, the former Sultan  
Abdul Hamid, until the Young Turks  
overthrew Abdul Hamid and brought  
Mehmed out of his seclusion to be  
placed on the throne. He was then  
sixty-five years old. Although credit-  
ed with being a man of good intelli-  
gence, the sultan has been considered  
a puppet in the hands of Enver Pasha  
and the inner circle of the committee  
of union and progress. His seclusion  
for so many years is said to have ruin-  
ed his initiative and executive ability.

**His Chosen Profession.**  
"And what do you expect to be when  
you grow up, Bobby," asked a minis-  
ter, "a lawyer, like your father?"  
"No," Bobby replied. "Mother says  
I'm too much like papa to make a suc-  
cessful lawyer. I guess I'll be a lion  
tamer."—Chicago News.

**Egypt's Desert.**  
It has been discovered that the air  
of the Egyptian desert is as free from  
bacterial life as the polar regions of  
the high seas, and it is an excellent  
place for people suffering from rheu-  
matism or consumption to take up their  
abode.—London Telegraph.

## BIG SUCCESS IN EVERY WAY

Was The Moose Labor Day  
Celebration

Parade One Of Best Ever  
Seen In City

While A Big Crowd Was At  
Riverside Park

To See The Athletic Events  
And Fire Works

Automobile Races Are Held  
At Hiawatha Park

The Moose Labor Day celebration  
was a big success in every way from  
the start of the parade at 10 o'clock  
in the morning until the last of the  
fireworks were fired at 8 o'clock at  
night. Saturday and Sunday rains  
somewhat dampened the ardor of the  
committees, but they kept right on  
with their preparations, almost being  
compelled to wear bathing suits at  
the park Sunday afternoon, but when  
Monday broke clear every one got on  
the job and made things hum.

The parade formed between nine  
and ten o'clock and there was no con-  
fusion as is generally the case with a  
large gathering. Chief Marshal Brent-  
linger and his first assistant, Thomas  
Auskins, placed each float and lodge  
as they appeared and when the pa-  
rade started up High street the head  
of each section knew just where to  
fall in.

The Moose are being congratulated  
on all sides for what is considered  
one, if not the finest parade ever  
pulled off in Mt. Vernon, and this  
good feeling extended to them more  
than pays for every effort put forth  
to make the day a success.

The parade was scheduled to start  
at 10 o'clock and at 10:15 the band  
played and they were off. It is hard-  
ly necessary to go into details as to  
the formation of the different floats  
and lodges as everybody who could go  
was out to see for themselves.

High, Main and Gambier streets  
and the public square, all along the  
line of march, were crowded to their  
capacity and this was indication  
enough that the 1915 Labor Day ce-  
lebration in Mt. Vernon was going to be  
something to be remembered.

The merchants who turned out with  
floats are to be congratulated, as  
there surely never was a better dis-  
play, there being a little over a mile  
of floats and with the other contin-  
gents, the parade was nearly two  
miles long.

There was only one slip-up in the  
arrangements of the parade which  
the committee is very sorry for and  
it was not discovered until about five  
minutes before starting time. The  
Moose had invited the old soldiers to  
take part in the parade and thought  
that they had arrangements all made  
for conveyances, but there was some  
misunderstanding and there was no  
way for them to ride, but they were  
on the job, ready to go and that  
shows they had the right spirit. The  
K. of P. lodge in twenty-five automo-  
biles, headed by their drill team and  
accompanied by Kokosing Co. No. 71,  
Uniform Rank, surely made a fine  
appearance and showed that Timon  
lodge is up and doing.

The Maccabees' float, drawn by  
six horses and containing the degree  
team, was one of the pleasing sights  
of the parade and shows that this  
lodge also is to be considered among  
the leading lodges of the city. The  
Eagles, mounted, with Old Glory at  
their head, were complimented on  
their turn-out.

The space is not large enough in  
these columns to give each mer-  
chant's float the credit due them for  
their fine appearance, but as a whole,  
each merchant in the parade received  
his share of compliments.

The streets of the city surely pre-  
sented a different appearance Mon-  
day from what they generally do in  
Mt. Vernon on a legal holiday.

At Riverside park everything was  
carried out as scheduled, there being  
at least ten thousand people on the

grounds during the afternoon, and it  
is estimated that there were more  
than that in the evening to see the  
fireworks and no one was disappoint-  
ed as there was never a finer display  
and no accidents occurred to mar the  
occasion.

Taken as a whole, the celebration  
was one grand success and Moose  
lodge is responsible for giving the  
people of the community a big free  
celebration which will be remember-  
ed until next Labor Day, when there  
will be another that will be so far  
superior to this one that they will  
never forget it. The committees say  
they have learned enough to make  
the next one something fine, with a  
year to prepare for it instead of  
about sixty days.

### AUTOMOBILE RACES

Held at Hiawatha Park on Afternoon  
of Labor Day

The Labor Day automobile races at  
Lake Hiawatha park were well at-  
tended and greatly enjoyed. There  
were two 5-mile events, one 10 and  
one 25.

Earl ("Kid") Dorsey of this city  
won everything except one of the five-  
mile events, which was captured by  
Mowery of Loudonville, who drove a  
Stutz car.

In the 25-mile race the following  
cars started: Knox (Dorsey), Fire-  
stone (Lake), Blitzen Benz (Teel of  
Columbus), Cole (Campbell of Co-  
lumbus). The cars finished in the or-  
der named.

There is some talk that another  
race with a large entry list will be  
staged before winter comes.

## To the Patrons of our Milk and Cream Plants:

Become a Leader in your Community and Make More  
Money—Progress Points the Way.

If it were within your power to confer an important benefit upon  
your entire community, would you do so? If an opportunity offered for  
making more money, would you take advantage of it?

Most of us would. Will you permit us to call your attention to  
such a double opportunity?

The Licking Creamery Company is attempting to secure a modern,  
sanitary equipment, simple and inexpensive for the dairies in your  
community. Do you not believe that well-drained barn-yards, sur-  
rounding clean barns with tight floors and ceilings, and plenty of win-  
dows with two applications of white wash per year, and a few other de-  
tails would aid in producing more and better milk?

Do you not believe that a small neat milk house with fly screens  
in the windows would help? Do you not think that barns like these  
and such milk houses would lessen the drudgery, and add to the satis-  
faction, comfort and efficiency of the work on the farm?

Ask your most successful men if they do not believe it would be  
to the financial gain of the whole community to have the milk and  
cream products of your farms eligible to the best and highest priced  
city markets, instead of being largely restricted to the buyers of sour  
cream for the purpose of manufacturing what is usually an inferior  
grade of butter.

Would you not take pride in the fact that your community was  
able to produce dairy products that were safe and salable?

The Licking Creamery Company is trying to secure that result and  
is offering a premium for cream produced from dairies of the kind de-  
scribed above. This movement is for the good of all, producers and  
buyers alike. IT IS CALLED AN INSPECTION.

If you are willing to become a leader in this movement write us that  
you will fix up your barns and help us personally by recommending  
the same to others. We want your help.
